For Immediate Release – May 19, 2022

### **Beef Quality Assurance Training**

*Hardin County* – Join Hardin County OSU Extension for a Beef Quality Assurance certification training scheduled for Tuesday, May 31 from 7:00-8:30 pm at the Extension office located at 1021 W Lima Street in Kenton. Beef Quality Assurance training is for beef cattle producers, needing to recertify or certify to sell cattle at auctions and other markets. Many of the major beef processors, auctions, and other markets began requiring producers to have a BQA certificate at the beginning of 2019. Beef Quality Assurance certification is for a period of three years and was previously held in Kenton in December 2018 and February 2021. Several local producers need to recertify in addition to any cattle producers who need to gain BQA certification for the first time.

Beef Quality Assurance (BQA) does more than just help beef producers capture more value from their market cattle. BQA also reflects a positive public image and instills consumer confidence in the beef industry. When producers implement the best management practices of a BQA program, they assure their market steers, heifers, cows, and bulls are the best they can be. Today, the stakes are even higher because of increased public attention on animal welfare. BQA is valuable to all beef and dairy producers because it demonstrates commitment to food safety and quality; safeguards the public image of the beef industry; upholds consumer confidence in valuable beef products; and improves the sale value of marketed beef cattle.

Training enhances herd profitability through better management. Ohio State University Extension, in cooperation with the Ohio Beef Council, the Ohio Cattlemen's Association, and Ohio's cattle auction markets, is working to offer Ohio's cattle producers several opportunities to become Beef Quality Assurance Certified. Certification can also take place online at <https://www.bqa.org>. Register for this Kenton training at <https://go.osu.edu/HardinBQA> or call 419-674-2297. Registration is required and space is limited for this local no cost in-person training that is good for both initial BQA certification or recertification.
